Turning
on the taps
for some
hot sex

Water World

I once had a friend, whom I'll call Emma that was always thinking up new tricks and ways turning her partners on. Some of the things she did I adapted to make my sex life more interesting. And just like anyone who passes on a good recipe, it must have been tried in one's own kitchen and get the sex seal of approval.

Emma did some housecleaning to bring in some extra cash. She once had this rich old guy come in unexpectedly while she was washing up the kitchen floor. She was swishing the mop full of suds over the linoleum when he comes in. He makes a few cracks and then tells her that he is in need of a cleaning. Playfully she slides some soap under him and he skids to the floor. Then she swishes him around over the wet and soapy floor. In a matter of minutes he is groaning and oohing and laughing and holding his gut and then, whoosh, he comes so big and powerful he damn near blows his pants off. This proves to be such a success that he goes for the soap on the floor

routine every time Emma comes to clean his apartment.

So I tried this with a guy I've been dating; it worked fine. The only difference was that we did this in the nude, which is a better switch. I got myself an ordinary mop and a bucket of suds. Johnny would sit on the floor and I would swish the water between his legs, let the white caps of soap sort of trickle up his groin on to his dick. I told him he had a dirty dick and he said I had a dirty mouth and he had better clean it.

So what better way was there than for him to swish his soapy dong inside my mouth? He would pull out and slide around and then he would sprawl over the water. He would come with the biggest bang, and every time he did it would sort of rock him back on his heels. Johnny always came like that, with the recoil of a cannon. He would catch me in the face and I would swallow some and save some for the swish around.

We once went into the tub, a big

one, so that we could sit and face each other and I would bend down and try to catch his slippery cock in my mouth. Sometimes I would miss and sometimes the come would form little pockets in the water and we would chase after them.

Another thing we did was to take the water vibrator, the ordinary kind you attach to a showerhead and let the water vibrate over his balls and I could watch his cock slowly rise. Then I would get down on my knees and let the vibrating water bounce off my ass and on my neck, as I tickled his cock with my tongue. There was a transmitted sensation from the water shower, up my neck, into my head and out my tongue onto his dick. And when we came together, believe it or not, it was the greatest internal massage I ever had.

As you can see, there's more to be done with water than drink it. (You have to be careful not to use water with anything electric. That kind of a shock you don't want.) Let's take an ordinary water hose. Actually

it was the kind that's used to water houseplants, so you don't have to drag any heavy monster around. And it is small enough to give you the kind of irrigation that used to be popular and maybe still is, in certain parts of California. Anyway, we attach this hose to the bathroom faucet and we take turns standing in the tub or shower, letting the water run up and down the body, inside and out, tickling my clit or wetting his balls. The idea is to do it gently and softly, so that it kind of sparks interest and doesn't disturb it with unnecessary discomfort. There can be nothing more soothing than a gentle play of water on the right part of the body at the right time.

I would take the hose in my hand and then suck on the tip, letting Johnny see me. And all the time I knew he was waiting for me to take hold of his cock. But instead, I would sort of suck in the water, and then spit it out. This was symbolic, of course, of what was to come. But seeing me do that with the hose was enough to get him

trembling and to holding my head and then forcing it toward his dick. I must say I didn't resist much. I would have a mouthful of water when I would start to hold his cock between my teeth, rolling it in the water, then sort of a having a 'come' cocktail. There's something to be said for this sweet drink—and high protein too.

But there was something that could be done for me, with soap and water. I didn't take too much to be being swished around on a soapy floor like Emma's old man. But it wasn't bad, either. There was something to having an ass full of soap and having Johnny make my pussy all clean. He would do this with his hands and with his fingers and eventually with his tongue. You might think the taste of soap is not something to be desired—and you would be generally right, except that we never actually ate the soap, but rather used it as a sort of foam.

I would get a spray can of whipped cream and lick that off Johnny's head. If there were soap

mixed in it was overpowered by the whipped cream. As Johnny said, you could put that stuff on shit and it would taste good, well almost.

But to get back to water, this natural turn-on is plentiful, all around us and almost always accessible. So why not use it for more than drinking? You could begin by making it in water. Some think this is not possible, but I can tell you from personal experience that it is. It was a kind of feeling that was unique. I used to have to sometimes wet his dick with my mouth, which was better than lube and he could slide in easier. I didn't really need to be loosened up, but the little ceremony sort of set the mood.

Anyway, we were in his outdoor pool one summer night, swimming in the nude as we always do. He tried to fuck me in the water and it became a kind of game which is a total turn on. He finally found the entry. (I let him as I feel you should not hold out too long.) He kept losing his shape and shrinking and that almost ruined everything, not because his hard-on wouldn't hold, but because we both started to laugh. Laughter can really be a turn off at the wrong time.

Anyway he did hold it and then I felt him going inside, felt the wet, felt him grow and smack up against my clit. (No matter how you cut it, that is the way to come.) He would twist and turn and we would do a backstroke and sometimes my face would be underwater and sometimes his. But I always came up for air and we hung on together, longer than he was ever able to hold it before, which was more than just wonderful.

He was rubbing against me without friction, yet turning my insides so that I felt my spine get all tingly and my insides seemed swollen and red

without hurting—oh yes, a glorious hurt. I started to breathe hard and almost swallowed too much water but I didn't mind.

We kept turning over and over, never letting go. I remember clawing his arms, sticking my feet into his ass and then bending over as he shot into me the most wonderful hot spurt that was wonderful because it was the first time ever doing that. There have been many times after that, but nothing quite equaled that first fuck in the water.

Of course, when I just wanted to tease him and turn him on slowly I would wear my white suit under the shower, knowing damn well, when it was all wet he would be able to see the nipples and the outline of my beaver. He couldn't wait to get it off me. I couldn't wait to let him, either.

The sound of water is something else too. There's a sound effect of water falling or maybe just rain, which is to be played when you have a difficult time getting to sleep. The sound of falling water is supposed to have a calming effect. And the best thing about that is that you have all your senses about you all the time.

Let me tell you that a dripping faucet though can drive the average person up a wall. I remember once

when I was just about to come I was conscious of the fact that the faucet in the bathroom was dripping. The sound ruined everything and I pulled away. He came over the sheet. So I sponged it down and made the bed all wet. Instead of moving off I playfully pushed him back on the wet sheet and the cold against his ass, sudden-like, made him give out a howl.

It wasn't so bad, though. He wrapped his legs around me, to lift his ass off the sheet, which put mine against it when he sat up and I felt the damp, cold chill. It touched me all over and he wouldn't let me off the spot, all the time licking my face and my ears and in my mouth with his tongue. The damp sheet sent a small chill into my body, which came up against the hot spell he was pushing down. And when the two met, boom! There it was: the lips of my cunt quivering, my clit maybe as long as some guy's dick and the shoving of his dick inside me was a warm comfort to the outer chill which, I might add, no longer bothered me.

Johnny and I were on a camping trip, our tent near a small waterfall. Have you ever lain back under a waterfall let the water caress your body, feel inside you? We did. It

was somewhat like the bath-shower massage, except that we were not confined to a small space. We could crawl along the ledge, letting the water lap all over us. It was good, clear water, unpolluted, and Johnny would lap small droplets out of my belly button and lick the dew off my pussy and finish with a grasping, tonguing of my clit. I would do almost the same for him, drinking in the water that gathered in the folds of his muscular body, licking the water out of his navel too and then going down so that I could spread the water over his public area, pushing his thighs together to hold some of the water for me to drink, spreading them apart fast and trying to catch the water before it disappeared. And when I missed I would catch him in my mouth. There was nothing wasted, not water or motion.

But as I said, there is much you can do with water right in your own home, whether you live in a house or apartment. Chances are, unless you're paying rent to a slumlord, you have water. You could, if you wanted to, mix the water with gin or vodka but that isn't necessary, except if you want to turn yourself into a giant martini.

Seriously, I remember sitting on

the shower floor, sort of letting the water spray gently over me. I was conscious of Johnny coming in, straddling me, almost sitting on my head, letting the water spray over us. Have you ever looked up and seen the long end of a dick, hanging over your forehead, watching water tumble off it, catching it in your mouth? Damn, it's enough to turn a girl on. And it did me.

There just is something unique and all the same—universal—about water, the rush of it, the wet of it, the sound of it. What it does to me and what it does to him can be described in this one scene that took place just this morning. Thinking of writing about water was enough to set me off and I told him about the feeling of him and water.

He wouldn't let me get started at my computer. Instead, he went into the bathroom and the kitchen and turned on all the taps. He even flushed the toilet but that was to remind me of the time we had under the waterfall.

Then, with the water running he pulled me into the living room, threw a blanket on the floor and went to get a glass of water. While I lay there he began to pull off my clothes, gently but firmly. He sprinkled some

water over me, sort of anointing my body and then he began to make me holy. All the time sprinkling water on me he rolled over me, letting his dick drag up my body and over my breasts and into my mouth. And I, of course, held him between my lips and then with my teeth scratched down his shaft and he sprinkled water on my head and blessed me for what I was doing.

I began to moan and cry and ask him to make me come. I became carried away with the moment and thought of it as more than just a damn good fuck. It was. He was all over me and under me, never for a moment letting me forget that he had hands and feet and a stiff dick and entering every part of my body.

There was something about Johnnie's thighs, his chest and ass that moved me. When he was there, naked the whole length of what he had, pulsating, throbbing, turning and twisting was simply the most enticing object I could see. When he came over me it sometimes hurt, sometimes the hurt was lovely and the more he rammed, the more he penetrated so that I thought if I opened my mouth it would come out.

There was no real pain when I heard his heaving, heard his breath-

ing grow faster and faster and when it was over for him at the same time it was for me, there was no more glorious feeling in the whole world.

When he was twisting and turning inside me I burned. When he licked my breasts he would sometimes get carried away and bite my nipples too severely, but he would caress them with his tongue and never forget to anoint me, to give me the holiest sexual of feelings.

And when I came it was big and strong and wet, and my wet mixed with the water that was sprayed over my thighs and mixed with his juices so that it didn't matter which was which.

When my pussy juice trickled down my legs and onto his it didn't matter, for there was water to wash, water to cleanse, water to make it all right—and then we could get started again.

If water, or just the thought of that, does this for us, there is no reason why it can't do the same or more for you. Water is one of our greatest natural resources. So use it wisely. You hold each other under the shower, in the pool or lay in the bath together. You not only save water but it can be the greatest sexual dunk you can have. So turn on the taps.

I wasn't enjoying life anymore like I used to. I was bored. I'd given up a promising career and most of my friends had gotten married. But I found my sexual interests were steering towards younger men. They seem to appreciate my ample assets a bit more, and I love that their cocks are always hard.

WANNA REPLACE MY FINGER WITH YOUR COCK?

Confessions of a compulsive masturbator

Coming of Age

"You don't touch yourself, do you?" my mom once asked. "No, Mom. Of course not!" I replied.

And it was "No, Mom, of course not" until I was 18. And then one day a girlfriend of mine and I were talking about sex and she was shocked when I said I didn't masturbate. And I was shocked when she said I should. And we giggled a few minutes later as she tried, without actually doing it, to teach me how.

Soon I learned. That very night I went to bed with the intention of "touching" myself to orgasm. I remembered that she had explained exactly how I should place the first two fingers of my right hand astride my clit (after she explained what and where the clitoris was) and rub myself until I came. I wasn't sure exactly how that was going to work but I was game to try in spite of the trepidation I felt. (After all, maybe Mom really knew something.)

Anyway, I put on my silkiest nightgown, thinking it would help my mood. I lay down on my bed, flat on my back with my legs slightly bent, and I pulled my gown up with my left hand and placed my right hand on my pussy (I didn't wear panties that night). I then proceeded to rub the outer sides of my clit with my fingers.

Unbelievable! It took me about 30 seconds of rubbing to come off like a rocket. I never felt anything like that in my life before. I was amazed that I'd done it—and amazed that it was so easy. I couldn't believe that I'd had that ability all my life and hadn't had the sense to take advantage of it. I mean,

if I had known what masturbation could do, and appreciated its availability, I'm sure I would have been diddling myself daily (hourly?) from the time I could walk!

Well, from that night on—for a few months at least—I found myself coming off every single night; each time in joy and awe over this wonderful little secret I'd discovered. Of course, in my naïveté, I masturbated only at night and only in bed those first few months. I mean, I was really slow in coming to full auto-erotic maturity.

Since then, however, with the avid drive of the typical convert, I've explored this whole subject of masturbation and become somewhat sophisticated. For instance, it became obvious before too long that the great orgasms I was having were due in part to the novelty of touching myself. When that wore off, I was in the position of having to find something new to put me in the mood. I could still come off in 30 seconds or so by rubbing myself, but it was taking more than the act of climbing into bed to get me going—and the orgasms were diminishing in intensity somewhat the more I had them. I wanted what I'd had and I was willing to "come and get it" anyway I could.

So there I was, looking for something to turn myself on with. The first thing I found was a romance novel. I found that reading some really sexy stories about sexual experiences other people have, and that would get me going in no time flat. I would read a few pages, getting into the mood, climbing into bed and frigging myself off.

BLAIR-NTS-00

I spent many happy weeks shoving that thing in and out of my cunt...

Finally, I discovered that about a half hour of reading any kind of sexy material whatsoever—high-quality, low-quality, out-and-out raunchy—got my little clit throbbing and my hand hankering and before you could say the word, I'd be down there rubbing around for a moment or two and then, pow! It was done and I was done.

The next step in my auto-sexual maturity came when I realized that while sexy words worked and probably always would work, they had become like married sex. It's always good; it always leads to an orgasm; but it's always the same. Even by myself, I needed some variety. Imagine how it felt to be taking myself for granted!

I discovered mirrors. One afternoon I was sitting on my bed reading and had an urge to come off. As I thought about it, my eye caught my dresser mirror and a light-bulb went off in my head. I locked my bedroom door (God help me if my mother caught me!), took my hand mirror off my dresser and took my jeans and panties off. Then I sat back up on my bed, propped the mirror on my night table, reached my hand down and watched my fingers diddling my pussy. Again, POW! My mind reacted to the mirrored image of my pussy so fast I hardly knew what hit me! I mean, there I was in all its pink, puffy glory. I'd never even seen me there before.

Well, this mirror business worked fine, especially as I learned to watch myself inserting my fingers in my cunt while my other fingers were busy rubbing. I even learned to switch-hit, changing hands in midstream as it were, to give myself more than 30 seconds of pleasure. Watching my fingers being inserted into my cunt gave me my next idea.

I found a plastic bottle of hair gel,

washed it and put some lube all over it, and tried inserting it. It worked too. In fact, to be honest, everything I'm mentioning now and will mention worked. I mean, I wouldn't waste your time or mine over something that failed. Would you?

That idea led me to break down and order a dildo at an online sex shop. It almost looked like the real thing. I didn't even know about those marvelous little things but happened on one in my friend's dresser drawer one day while I was hunting for something for her. Anyway, she told me what it was and what it was for, and so I went and bought one. It was flesh-colored, fat, long, rubberized, cold, and it worked just fine.

I spent many happy weeks shoving that thing in and out of my cunt, alternating with my fingers and whatever else I could find. Of course, I mean, I didn't want a boring relationship with myself any more than I did with anyone else—if you get my drift.

My sexual maturity was coming along just fine at that point but I was so into experimentation that I wanted more and more excitement. I found out about vibrators—battery powered with two speeds. I liked sticking them inside of me, not because they were more thrilling to watch in the mirror than anything else (after all, it was the act of watching the objects being inserted that turned me on). Because they moved and made a cunning little buzzing sound.

I'm ashamed to say that I used my little vibrator (seven inches if it was one!) inside of me for months before I found out that the better way of using it was by applying its little buzzy head to the area immediately surrounding my clit, and the hell with my cunt.

Wow, my 30 seconds decreased rapidly—so rapidly that it only took

BLAIR-NTS-10

I asked him how he would feel if I masturbated myself instead, with him there next to me.

one application before I forced myself to use it more carefully: less close to my clit, so that I could at least get its greatest benefits.

And so for a long time I alternated between objects in my cunt and fingers around my clit; just fingers around my clit; objects in my cunt and the vibrator near my clit; and just the vibrator near my clit. They all worked and they were all good, and I was really mad about all of them. But I still felt that there had to be more. I was a seeker, a searcher for the ultimate in erotic self-pleasure. I was right. There was more.

My partner and I were in bed one night; that is, we had been messing around and he came off and I hadn't, when he went down on me as was his habit if I hadn't come during our fucking. I had an idea: I asked him how he would feel if I masturbated myself instead, with him there next to me.

He didn't mind (boy; had I been stupid about him!) and in fact, he got a terrific hard-on just watching me rubbing myself with my probing two fingers. That led to more sex and another orgasm, and I was sure that I had finally found nirvana. We experimented a little; we tried him just watching me, each of us watching the other masturbate, and my masturbating while his fingers worked their magic in and out of my cunt. I loved it all. But insatiable creature that I was, the more I had the more I wanted.

One day, while I was revisiting the pleasures of sitting on my bed watching myself get stuffed with my dildo, I noticed the sweet little pucker of my asshole. Ah hah! A new idea struck me. I re-lubed the dildo, greased up my butthole, and knocked on my back door. To my surprise, it opened (with some friendly pushing) and let the dildo in. I almost swooned with pleasure. I mean,

this was definitely it! There I was with a dildo in my ass and I was reeling with the pleasure. My fingers were almost unnecessary, it was so great!

For a long time, just having the dildo in my ass did it for me; I was satisfied. Then (here it comes) my imagination started going again and I decided that if a stationary dildo was good, a moving one would be better. And so I began fucking myself in the ass with the dildo—fantastic! I even managed to fuck myself with it while my vibrator was buzzing my clit. I tried the vibrator in my ass as well but it wasn't as good; it was okay, understand, it just didn't have the same oomph! It wasn't as big around.

Finally, as is usually the case with people like me who want it all, my pleasures plateaued. I found that a dildo in my ass, the vibrator in my cunt (or vice versa), and my fingers working my clit were just too much. I couldn't concentrate on what I was doing. I was doing so much that I finally was defeated. I learned that success is to be treasured and not denigrated by the ever-constant seeking after more.

Chastened, I am once again masturbating simply: fingers rubbing my clit, alone, with no friendly foreign objects filling up my orifices. I am giving my body a rest, desensitizing myself as it were, in anticipation of one day being free to explore my orgasmic possibilities again.

Next time, I will go gratefully into each experience and treasure each new thrill as if it were my last. I know where I'm going now (it's the dildo in the ass, fingers rubbing that I like the best and miss the most) and I intend to savor each step of the way until I get there. Once there, I will appreciate what I've got. This thrill seeker has learned her lesson.
